TRAINING EXPERIENCE

Web Development Trainee at AlmaBetter

Skills: React.js, Node.js, Express.js, JavaScript, Team work, Business Communication

01-2023 – 11-2024 | Bangalore (remote)

- Gained hands-on experience in front-end with back-end programming languages and tools such as Node.js and using database such as MongoDB.
- Created and optimized web applications, utilizing front-end frameworks like React and back-end frameworks like Express
- Learned about best practices, including user authentication and data encryption, to develop and deploy high-quality and secure web application.
- Secured a place in the top 5% of students in the cohort of the 100 students by AB-CAT Exam.

PROJECTS

Project Management Tool

Tags:

Angular, Tailwind-Css, Node.js, Express.js, MySQL, Jwt Auth

- Developed a comprehensive task management system aimed at facilitating efficient task assignment and tracking within organizations.
- Utilized a modern tech stack, including Angular for the front end, Express.js for the back end, and MySQL for the database.
- User Authentication and Authorization: Implemented a robust authentication system to secure user accounts and restrict access based on roles (admin/employee).
- Task Assignment and Tracking: Enabled admins to assign tasks to employees, set deadlines, and track task progress through different stages (e.g., pending, in progress, completed).

Reserve Bus-booking Web App

Tags: React.js, Context Api, MongoDB, Stripe, Node.js, Express.js, Git, Github

- Developed a bus ticketing platform that allow users to search for book and manage their bus tickets.
- Developed RESTful APIs using Express.js for communication between frontend and backend.
- Integrated Stripe payment gateway, ensuring secure and efficient payment processing.

Hotel Booking Website

Tags: Html, Css, Javascript, Node.js, Express.js, MongoDB, Fontawesome

- Designed and developed a responsive Hotel Booking Website Using HTML, CSS, JAVASCRIPT for frontend.
- Built the backend infrastructure using Node.js, Express.js, MongoDB.
- Implemented user-friendly interface for room selection and preferences booking.
